Core Skills	Code Optimization, User & Authorization Management Object-Oriented Programming (OOP), Database Management System (DBMS)

PROJECTS

LinkLateR : ([Live](#))

- Created a **multi-platform link saver** backend system enabling authenticated users to securely save and organize URLs from seven major platforms including YouTube, Twitter, Instagram, Threads, Notion, LinkedIn, and Facebook—all managed efficiently via Node.js, Express, and MongoDB Cloud.

- Built and optimized a **responsive user interface** using React.js and Tailwind CSS, ensuring seamless link saving, organizing, and retrieval with smooth performance and accessibility on both mobile and desktop devices.

Crypto-Hack : ([Live](#))

- Developed a live cryptocurrency dashboard using React.js, utilizing API integration to present real-time updates on cryptocurrency prices, market capitalization, and trends.

- Designed and implemented a responsive user interface with advanced data visualization, ensuring seamless tracking of price trends and historical data for over 100 cryptocurrencies across mobile and desktop devices.

CERTIFICATIONS

- Naukri Young Turk Certification. ([Link](#))

- Cyber Security Essentials By CISCO Academy. ([Link](#))

EXTRA CURRICULAR

- Led the charge for team strategy during the national cricket tournament, resulting in a remarkable improvement in team spirit and unity.

- Achieved 99.5 percentile in Naukri Young Turks assessment, ranking among over 5 lakh participants, showcasing advanced analytical and technical skills.
